Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas on 1/10/07.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1 at line 4 after "factors" and before ",", insert: "selected from the group consisting of bone morphogenetic protein, LIM mineralization proteins, transforming growth factors, insulin-like growth factors, platelet-derived growth factors and fibroblast growth factors".

The following is an examiner's statement of reasons for allowance: The closest prior art of record is Webster et al. The examiners amendment identifying specific growth factors is seen as distinguishing over the generic recitation of peptides by Webster et al. This reference fails to teach or fairly suggest the incorporation of growth factors such as identified in claim 1 into polymer/ceramic compositions. Applicants amendment to amount of growth factor is seen as finding support at page 13, lines 1-6 and as being relative to the composition as a whole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
